

### Serie di blocchetti e anelli per il controllo dei calibri

Serie di blocchetti pianparalleli e anelli in acciaio speciale, per il controllo e azzeramento degli strumenti di misura. Consegnati in scatola di legno. Precisione secondo norma DIN EN ISO 3650.

Codice	€	Serie (Pz)	Grado di precisione	Dimensioni (mm)
F203391001	---	5	1	30-41,3-131,4- $\phi$ 4- $\phi$ 25
F203391004	---	5	1	41,3-131,4-243,5- $\phi$ 4- $\phi$ 25

### Serie di blocchetti pianparalleli

Serie di blocchetti pianparalleli in acciaio speciale, più comunemente usati in sala metrologica per il controllo di calibri e per la taratura di strumenti. Consegnati in scatola di legno. Precisione secondo norma DIN EN ISO 3650.

Codice	€	Serie (Pz)	Grado di precisione	Dimensioni (mm)
F203441001	---	6	1	5,1-10,3-15-20,2-25-vetro interferenziale $\phi$ 32 x 12
F203441004	---	9	1	5,1-10,3-15-20,2-25-50-75-100-vetro interferenziale $\phi$ 32 x 12

3

### Blocchetti di riscontro in acciaio

Blocchetti di riscontro in acciaio speciale, temprato e lappato, con elevata stabilità e buona adesione. Ogni blocchetto è identificato con un numero di identificazione individuale, più comunemente usati in sala metrologica per il controllo di calibri e per la taratura di strumenti.

### Set di manutenzione per blocchetti di riscontro

Set di manutenzione per blocchetti di riscontro, per la pulizia e conservazione in ottimo stato dei blocchetti.

#### Contenuto:

- stracci in lino
- pelle in camoscio
- 1 lattina di olio anticorrosione
- pietra per affilare
- pinzette
- pennello largo
- istruzioni per l'uso
